

HOW TO CARE FOR DOMESTIC ANIMALS

The Problem of Animal Industry and Dairy Sanitation Condition

The production of milk from healthy cows and the delivery of the same to the consumers in a condition as nearly approaching the state of purity in which it comes from the cow as is possible, is one of the principal problems that today confronts the sanitary inspector. This problem is a complex one, or rather a composite one, inasmuch as it one would solve this he must first deal with several lesser ones. The lesser ones may be enumerated as follows: The health of the milch cow; equipments; stables, water, feed, utensils, etc., methods, owner and attendants. In order to accomplish a success in the dairy business, owing to the prevalence of tuberculosis among beasts and mankind, is to lessen this ravage disease, is that you'll have to tolerate the following dairy regulations:

1. That all cattle from which milk is used or consumed or being sold to the public use, must be subjected to tuberculin test and the reactors removed.

2. That all stables and buildings in which milch cows are kept have installed adequate ventilation and windows equal in area to one-tenth of the floor space; stables, etc., to be limewashed twice yearly.

3. Any other sanitary measures which might be considered to accomplish a pure supply of milk and meats for the public use.

4. With regard to ventilation, here's a good system that will give us satisfaction. However, many dairymen contend that in order to obtain a good supply of milk it is necessary to keep the stable at a temperature of from 60 degrees to 70 degrees F. As the stables are not heated artificially, this temperature can only be obtained by closing up the ventilators, and until milkmen can be educated up to the point that pure fresh air is more important than a high temperature we'll have tuberculosis stock. To the end, note the following: One-tenth of the area of the floor is the requirement for windows; 500 cubic feet space for each animal in the stable. Manure to be removed twice daily to a distance of not less than 200 feet from the stables. And by all probability aren't you horse-lovers going to look for the well-fare of your equine friends, and if you are really interested in your horses why do you let him suffer with his diseases. The first step to take to get your horses fat is to take them to a qualified veterinarian and have their teeth examined and treated if found necessary. For we all know our horses don't savor or mix the various languages enough to tell us when he is in agony from some disease. People please remember your old animals have heart and feeling just the same as people.

Coming Wedding Announced

Judge and Mrs. F. W. Perkins gave an announcement party at their home last Friday evening, announcing the engagement of their daughter, Miss Jephena to Robert Hill of the Forest Service.

Both are popular young people and notice of their engagement will be received with pleasure by their many friends.

Miss Bessie Hicks gave a handkerchief shower at the home of Mrs. C. H. Brownell Wednesday evening, for the bride to be, and those present were pleasantly entertained.

PROMINENT LAWYER BOOSTS FOR FLAGSTAFF

Mr. Joseph Scott, one of the bright legal lights of Los Angeles, who has attained prominence by his handling of the board of education cases in Los Angeles, was in Flagstaff Tuesday. In speaking of Flagstaff he said: I can't see why Flagstaff can not be made the real summer resort of the southwest; the climate and scenery are unexcelled by any; it is just the place we people from Los Angeles should spend our summers and it is easier reached than Lake Tahoe and such places, besides it gives us the complete change desired on account of the altitude. A big hotel that could accommodate people of all classes would seem to me to be the first thing you need here, together with the necessary advertising. With your beautiful surroundings, the pure breath of the pines and so many points of interest to visit, it would be impossible to keep Flagstaff from growing. I am leaving tonight, but would like to stay here a week if it were possible.

Elopers Caught Here

A considerable commotion was caused on No. 10 last week, Thursday night, when a man, with a woman and two children were taken from the train by Under sheriff Dickinson and Deputy Fairchild. They were arrested on telegraphic request from Hanford, California, charging the Portuguese man with having run away with another countryman's wife and children. Their tickets were for Massachusetts, from there they expected to sail to the old country.

P. E. Guard, a deputy sheriff arrived from Hanford Saturday with the woman's husband and the woman and children were taken back to California. The man in the case was released.

Slight Auto Accident

W. H. Anderson had a lucky accident with his auto Saturday while on his way to Anita with his daughter Miss Alice, who is to teach at that place the coming term. When about seven miles out of Williams the axle of the machine broke square off. They were running at a slow pace when the accident occurred, consequently no further damage was done. They "wagonetted" the machine back to Williams for repairs.

Wants Road Bonds Issued

State Engineer Lamar Cobb held an informal talk with a number of business men and others interested in good roads, at the Citizen's Bank Friday evening. He explained the reasons for the five million dollar bond issue for good roads over the state and made a favorable impression on those present.

The routes of the proposed roads are fixed in the law in order that there will be no mistake as to where the money is to be spent. The bond issue is to extend over a period of thirty years, and Mr. Cobb claims it will reduce the taxes on the property of the state from year to year and at the same time give the people the benefit of good roads.

NORTHERN ARIZONA NORMAL SCHOOL GROWS

This years enrollment at the Northern Arizona Normal exceeds anything heretofore done in the history of the school.

During the first three weeks the total enrollment was 181 pupils. The enrollments of the different years since the school was established, is as follows:

Year	1909	Students	57
	1910	79	
	1911	125	
	1912	127	
	1913	140	
	1914	181	

WILEY E. JONES OUT FOR ATTORNEY GENERAL

Hon. Wiley E. Jones, of Phoenix, is an active candidate for the nomination on the democratic ticket for the office of Attorney General of the State of Arizona.

Wiley Jones is one of the war horses of the democratic party and one who has been in the harness in the interest of his party at every election since his arrival in Arizona.

For eight years he was district attorney for Graham county before Greenlee county was taken from it, and at present Mr. Jones is assistant U. S. Attorney. He has been a consistent worker for statehood for many years both throughout this state and in Washington, D. C., spending his time and money freely to secure that end. He was an original Bryan democratic delegate from Arizona in 1896 and made the first nomination speech for Bryan for President of the United States. He was a democratic elector in 1912 and led the electoral ticket in each of the fourteen counties of Arizona and if nominated for the office of Attorney General, will make a vigorous campaign in every county in the state for election.

Mr. Jones is a forceful talker and an energetic worker, a bright lawyer and a man who is a consistent friend to his friends.

STABBED WITH CHISEL DIES AT HOSPITAL

Otto Hansen, blacksmith at Saginaw Camp No. 10 was stabbed in the abdomen with a chisel by Howard Luthers last Saturday afternoon and died from his wounds at the Milton hospital early Tuesday morning.

Luthers had been helping Hansen temporarily Saturday with blacksmith work, when the two quarreled. Hansen had beaten Luthers up considerably when he seized a chisel laying handy and struck at Hansen making a deep wound in his abdomen which resulted in his death.

Both men were brought into Flagstaff Saturday night on No. 10 by Camp Foreman Chas. Lindstrom; Luthers being turned over to the sheriff and Hansen taken to the Milton hospital.

So far as known there was no previous quarrel between the two men and the chisel happened to be the only weapon handy which was seized by Luthers. Luthers was beaten up about the head and face during the encounter.

Hansen came to the Saginaw camps last spring with a number of other lumberjacks from Duluth, Minn., where he claimed to have a brother living. He was about 35 years of age and unmarried.

The coroners jury empanelled Wednesday morning by Judge Harrington exonerated Luther after hearing the testimony and visiting the logging camps where the stabbing took place.

Superior Court Doings

Pansy Pearl Curtis was granted a divorce from Nathaniel J. Curtis by Judge Perkins Monday.

Mark Thomas, a native of Austria, was sentenced to the penitentiary by Judge Perkins on Monday, to serve a term of not less than one year nor more than one year and one day. Thomas waived examination in the Justice Court and entered a plea of guilty in the Superior Court to a charge of burglary, committed at the Greenlaw lumber camp.

The case of Amable and Joseph Bauchard, tried at the May jury session, and in which the jury disagreed, was dismissed on Monday on motion of county attorney.

ARTIST SWINNERTON IS NOW AN ENTOMOLOGIST

Artist Swinnerton, who makes "Little Jimmy" do fancy stunts with his Pa in the funny picture section of the Hearst papers, was out at the snake dance on the Indian reservation. He spent several days out there previous to the big event, getting acquainted with the snakes and entomological conditions among the inhabitants. He claims that many of the peculiar habits of the Indian which were heretofore mysterious to him, were explained away by this visit. For instance the strange dance wherein the dancer stamps the ground viciously, is not because he wishes to make it flat, but because their feet itch. Swinnerton solemnly states that bed bugs came out, barked and slunk away when they saw him. As a matter of protection he took a pink cheeked, tender young man named H. B. Meyers along with him as mosquito bane and as a result of his forebodingness, his hide was not once drilled into by a mosquito. This particular brand of mosquito, Swinnerton claims, has a front piece built and manipulated on the order of a dentists power drill. They are organized into regular choirs and sing melancholy songs as they drill for blood.

SHIPPERS OF TUCSON FILE A COMPLAINT

Complaint that illegal switching charges have been and are enforced by the Southern Pacific Railroad company at Tucson was filed yesterday with the corporation commission by the Tucson Shippers' association. The complaint alleges 'that the unjust charges have been in effect since Feb. 13, 1907, and asks for reparation to members of the association of the charge of \$2.50 per car handled for the ensuing period.

The complaint of the shippers states that the company has been guilty of discrimination in that cars for public team tracks were transferred free of expense to shippers, whereas the company has charged for moving cars to the private tracks of members of the association. Notice of the filing of the complaint was served yesterday on J. C. Forrest, attorney for the railroad company. The company is given ten days in which to satisfy or answer the complaint.

Free Phone Toll Saturday

The Mountain States Telephone company will have a grand opening of the new system at the phone building on Saturday Sept. 5th, when all are invited to attend, inspect the workings of the new system and test the long distance lines.

The long distance toll lines inside the state may be used free for three a minute talk to any part of the state connected by long distance. Their idea is not only to test the lines but to show patrons how easy it is to have a satisfactory conversation with friends many miles away. The district and local management want to know what complaints there are, if any, and to get together on a friendly working basis with their patrons.

Receives Merited Promotion

Fred Osborne, assistant manager of the Western Union Telegraph office, has been promoted to manager of the Western Union office at Brawley, California, one of the important stations on their lines. Mr. Osborne has many friends here who will be pleased to learn of his promotion.

NOTICE TO ALL FLAGSTAFF PRECINCT VOTERS

Owing to the heavy registry all persons living or working south of Aspen Avenue are requested to vote at Precinct No. 2 which will be held at McMillan Hall. This request is made so that all may be sure to get a chance to cast their vote at the primaries.

By order B. of S.

Sept. 8th.

Precinct No. 2 Flagstaff.

Clerk: Wm. Jones.

" Wm. Grant.

" Roger Morse.

" Arthur Cushion.

Judges: G. T. Wall.

" W. H. Power.

Inspector: W. H. Campbell

Marshall: J. W. Jones.

Sedonia Items

Mr. Lee Van Deren is suffering from a bruise on the leg which he received a few days ago in getting off his wagon. It seems that erysipelas resulted and the doctor advised him to take it easy for a few days.

Miss Edith Lamport is at E. M. Hart's and is preparing to take charge of the Sedonia public school in a couple of weeks.

John Smith of Williams is loading fruit from the Stemmer ranch for the Williams market.

E. M. Hart was a business visitor to the county seat the first of the week. He took in some very fine fruit from his place and the old Schnebley place.

James Wagner, the pioneer fruit peddler of the valley is loading from the Van Deren ranch for his usual routes about Flagstaff.

Mr. James Lamport is laying out the new wagon bridge across Oak Creek and is armed with a pair of assistants.

A big hop is promised as a dedication to the new school building recently erected.

Stolen From Mesa

"Don C. Babbitt of Flagstaff, is a candidate for corporation commissioner. He is one of the Lord's anointed people, which, being interpreted, means democrat. He was a Prescott visitor this week."—Prescott Courier.

Don is a pretty good fellow even if he is a democrat and it isn't fair to move him away from Mesa without any previous notice to his family.

Jack Wilson for Constable

Jack Wilson, the hustling plumber, is out fitting his pipes for the republican nomination for constable and will be in the race until sundown next Tuesday.

There is nothing wrong with Jack and he would make a good, conscientious officer if elected to the office. He has held a number of deputyships and has never failed in his duty. He is a consistent republican, has always got out and hustled for his friends when they needed his services and believes he is entitled to a return support at the primaries next Tuesday. Vote for Wilson, that's all.

OVER \$5,000 ALLEGED GRAFTED BY CLARK

Officials Monday were reticent in disclosing the contents of the report delivered by State Examiner W. H. Plunkett who recently examined the records of the county road fund to determine the extent of the alleged grafting credited Road Superintendent D. M. Clark of Yavapai county, who goes to trial Wednesday. Although no official confirmation can be procured, it is known that the report places the amount said to have been grafted by Clark at between \$5,000 and \$10,000.—Journal Miner.

MOQUI SNAKE DANCE DRAWS LARGE CROWD

The many visitors to the Moqui snake dance were treated to a lot of unwelcome diversion Saturday when they reached the Little Colorado river on their way back to Flagstaff. The heavy rain had put the river up so that machines could not cross and a dozen or more autos were held up until the river went down. Bert Babbitt attempted to make the crossing in the car and it went down within a few inches of the top. It was extricated however after much hard work.

Miss Ora Cantwell and Miss Botts crossed the river on horse back and were brought to town by an auto on this side the river.

Visitors say there was a great crowd of people there to witness the famous dance, though hardly as many as last year, owing to the fact that there was some delay in getting at the approximate date of the dance.

Many southern cars outfitted here for the trip.

Reception at Normal

A program has been prepared for tonight at the Normal Assembly room and a cordial invitation is extended to the people of Flagstaff to attend. The program will be a short one mostly musical and at its conclusion the visitors will be given an opportunity to inspect all the buildings including the new ones recently erected. President Blome, the faculty and students will be pleased to have you visit them.

Williams Pioneer Celebration

Saturday and Sunday will be general exposition days at Williams Pioneer Celebration for county candidates as well as other people who are looking for a good time. Williams people promise a big time and the citizens of Flagstaff, from current reports, will be on hand at the celebration in force.

An Advertising Story

F. I. Fletcher, at a Sphinx Club dinner, told an advertising story: "A man," he said, "entered a shop one bitter cold day and bought a woolen muffler. When he opened the muffler he found the photograph of a beautiful girl, together with a note saying: "If you are single please write to me."

"A name and address followed and the man smiled. He was single and he put the photograph on his sitting room mantel. There, every evening, looking up from his book, he beheld it. It was very beautiful and in a week he had fallen head over heels in love. "So he wrote to the girl. Another week passed, a week of anxious, nerve-racking suspense. Then the love sick man received this crushing letter:

"Sir: The Mary Smith to whom you wrote was my grandmother. She died nine years ago, age 86.—Yours truly."

"Our heart broken bachelor, on looking into this strange matter, found that he had foolishly bought the muffler from a dealer who didn't advertise."

War News Scarce

War news is scarce and aside from the declaration of war by Turkey against the Allies, throwing her fortunes with Germany, there has been little actual news filtering through the censors.

Germany seems to have had the best of the fighting so far, forcing the allied armies back until the capital of France has been moved from Paris.

Russia and Austria have had varied fortunes in the rear of Germany's great army. Austria having met a defeat and Germany it is reported, capturing 70,000 Russians.

England and France have been thoroughly awakened to the seriousness of the war and are now calling on reserves in an effort to gather together a great army of defense.
